

Figure 1

Figure 1 consists of two panels, A and B, showing histograms of the number of non-zero elements in the sparse matrices \tilde{A} and \tilde{B} , respectively.

Panel A: Histogram of the number of non-zero elements in \tilde{A} . The x-axis is labeled "Number of non-zero elements" and ranges from 0 to 100. The y-axis is labeled "Frequency" and ranges from 0 to 10. The distribution is unimodal and centered around 60-70.

Panel B: Histogram of the number of non-zero elements in \tilde{B} . The x-axis is labeled "Number of non-zero elements" and ranges from 0 to 100. The y-axis is labeled "Frequency" and ranges from 0 to 10. The distribution is unimodal and centered around 60-70.
